

Copper Burner Pigtails Part No. 1190 to 1197

Available in length size 12"-18"-24"-36"-48"-60". For 3/8 BSPM connections. Copper tube with brass bullnoze and nut.

Copper Cylinder Pigtails Part No. 1200 / 1201 / 1202

For MECV Connections. Copper tube with brass bullnoze and nut.

Part No. 1203

Industrial Gas Hoses Part No. 1230 to 1234 & 1245

Manufactured in Copper or wire braided hose with standard end fittings as per customer's specifications. Stainless steel braided Teflon hoses for ammonia and Carbon dioxide.

Stainless steel or G.I. braided flexible high pressure hoses for industrial gases. Internal tube could be of teflon, nylon or rubber in various forms for all gases as mentioned in table on next page.

TEMPERATURE RANGE

- For Hydraulic Oil Lines: -40° C to 100° C
- For water emulsions
 - (a) Pressure Lines: Max. Temp. Limit + 93° C
 - (b) Return Lines: Max. Temp. Limit + 82° C

We also manufacture all types of pneumatic hoses with different end connections in different grades and sizes as per requirements up to 2" size and pressure of 250 kg/cm²

Heat resistant flanged end hoses

R2 Industrial Gas Hose High Pressure

Liquid off-take hoses

S.S. Teflon Industrial Gas Hose High Pressure

Part No. 1245A

Part No. 1240 / 1241

Part No. 1245

SURAKSHA

GAZFLEX

Flexible Burner Pigtails

Part No. 1210 to 1214

Metal Braided available in : 3/8" BSPF x 3/8" BSPF - Length 24", 48", 72" & 120" or as per customer requirement.

These pigtails are available in SS Braiding, Suraksha, SAE100R1, Alpha Gomma Hose.

All these pigtails are available with brass end fittings with brass crimping or MS fittings with MS hydraulic crimping.

Flexible Cylinder Pigtails

Part No. 1220 to 1225

Available in size length of 2ft, 3ft and 5ft. or as per customer's requirement.

Used in cylinder connection to get more flexibility between steady manifold and cylinder.

This pigtail is specially used in Railway Pantry Car, Mobile Canteen Van, etc.

Also available with one side 3/8" BSPPF and other side FECV. Alfa Gomma make pigtails for all industrial Gases in similar end fittings.

These pigtails are available in SS Braiding, Suraksha, SAE100R1, Alpha Gomma Hose.

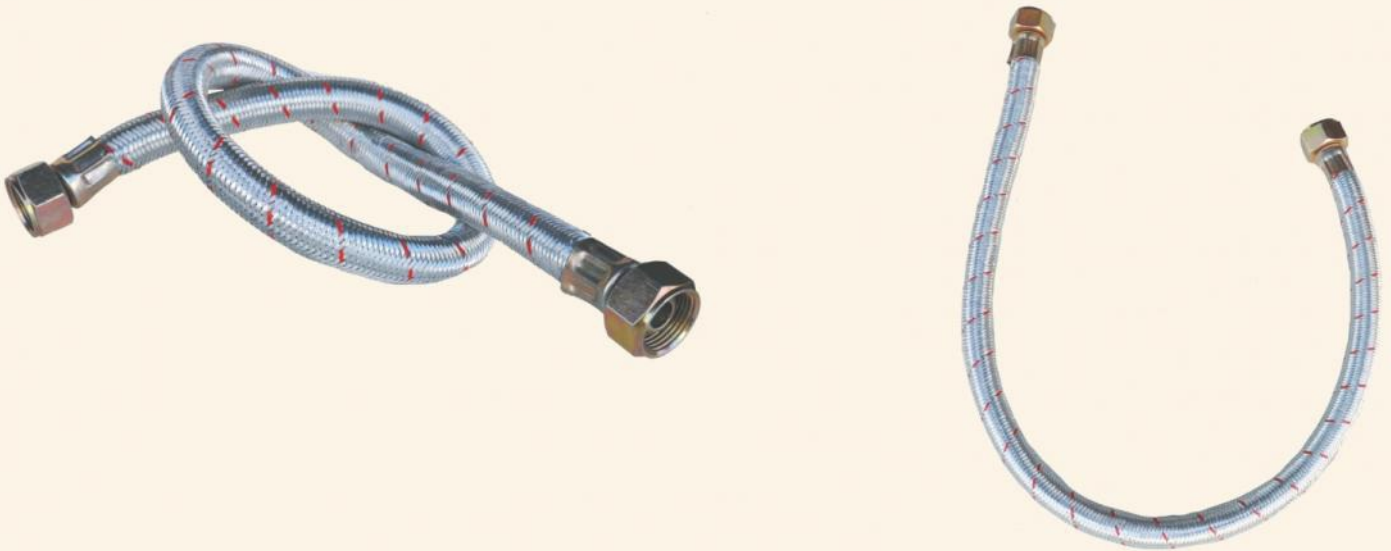

All these pigtails are available with brass end fittings with brass crimping or MS fittings with MS hydraulic crimping.

Low pressure hoses for imported automatic burners. Part No. 1230 to 1236

Made as per customer's specifications in GI and SS braiding with rubber hose and end fittings in brass or MS plated or SS end fittings.

Corrugated Stainless Steel Hoses Part No. 1237 to 1238A

With or without SS braiding
With or without PVC cover
for applications like corrosive environment, corrosive gases, chemicals, steam, water, liquids.

We can manufacture and deliver all kinds of hoses in a variety of materials, from 1/8" size to 2" from pressures of 100 mbar to 250 bar, with variety of end fittings in MS, Brass or SS.
