

Rotex automation limited is a Leading Manufacturer & Exporters of Solenoid valve and air operated valves with ability to design and develop customizes solutions over 30 years of experience. Rotex products are designed to control the flow of air, gas, water, oil and steam. Rotex Solenoid valve are modular in construction facilitating the user to select valves for various application from wide range and different construction of Solenoids independently.

Rotex brand offers products have given application:

Port: 2,3,4, and 5 port

Solenoid Enclosure: weather proof And Explosion proof

Body Material: Aluminium, Brass and stainless steel

Orifice: up to 80 mm

Pressure : Vacuum to 400 bar

ROTEX provides valve products and valve systems to a number of different industries such as Cement, chemical, Dairy, Engineering, Fertilizer, Food processing, Glass, Pharmaceutical, Railway, Refinery, sugar, Thermal power plant, Automobile, Off shore, Nuclear power plant.

The solenoid is an electromagnetic part of a valve, comprised of a coil, core tube, core and enclosure. ROTEX offers wide range of 2-, 3- and 5-way solenoid valves, Sub Base mounted solenoid valve, Engineered valve, Customized product.

- Available in : 2/2 way Normally Open / Normally Closed
- Power supply : 230 V AC  
12 V / 24 V DC
- Enclosure : Flame proof / Weather proof
- Pressure range : a) 0 - 10 bar  
b) 0.2 - 4 bar  
c) 0.5 - 10 bar
- Body : a) Alu Body  
b) SS body
- Size : 1/4" - 3" BSP thread

Technical catalog of ROTEX available on request.

Part No. 1344 to 1367
